

# CRYSTAL VIEW WEEKLY

## CENTEKI – THE SOCKEYE MOON

May 26-June 24 - This moon is the same colour as the pale grey sockeye salmon. The sockeye returns during this moon. The Salish art design represents the tide running swiftly through the reef net which is tied to the two canoes (SXELSCET). The Saanich Peoples history says that the people were once very poor. However, the Salmon people took pity on them and saved them by showing them how to fish and honour the salmon. At the beginning of the CENTEKI moon, a special salmon ceremony was performed before the net anchors were dropped at the ancestors hereditary family locations. Fishing continued throughout the four salmon months.

## THIS WEEK AT A GLANCE

### Monday

- Last Monday in May

### Tuesday

- Division 4 to Caleb Pike Heritage Park 10-1:30

### Wednesday

- Diversity Club at lunch recess
- Comic book club at lunch recess
