## SXÁNEL - Bullhead Moon

SXÁNEL - May 16 - June 14

This moon represents the visibility of SXÁNEL or what westerners call Orion's Belt. The moon's hair represents a strong wind that comes at this time and the swallows that arrive with the wind. In this moon, the PIOTEL (a group of three stars in Orion's belt called the Duck Hunters) appears on the horizon. During the SXÁNEL there are strong winds, the bullheads appear on the shore and the swallows arrive.

People spent more time on and around the water. During the moon the Elder women knew how to take their baskets to the beach and gather bullheads from under the rocks. The women would pole sticks under the rocks and big bullheads would say "SKA", which is their name. The bullhead was deemed a great delicacy.

This was also a great time for harvesting seaweed

## Week at a Glance

### Monday

- **Victoria Day - no school**

### Tuesday

- **Dance club at Lunch Recess**
